

I respectfully request that the FCC reject the NAB's petition 04-160. While commercial radio provides traffic and weather services to the community, it does so via a fixed schedule, regardless of the travel demands of the listening public. XM, on the other hand, is available to its listeners "on demand." This is a service I am willing to pay for, and have come to rely upon. To have this valuable service opposed by a broadcasting entity that cannot and will not meet my requirements is unacceptable. Respectfully,
Fred Sypher
